

There is clear danger in Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. Where will corporations stop if this action to directly engineer elections continues. We need local news, radio that is relevant to the lives of the listener, not this kind of effort to effect decisions.

Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. They show why the license renewal process needs to involve more than a returned postcard. Thank you.
